

REFINISHING PROGRAM

Weatherend's refinishing service is available year round at a fraction of the cost of new furniture. We use 10 steps to return your furniture to like-new condition. To our knowledge, no other furniture company offers this service for their outdoor products.

Furniture is disassembled, cleaned, sanded, reassembled with new parts as needed, primed and finished with a total of eight coats of Weatherend Yacht Finish in the color of your choice. Quality Control inspects each piece and a new Product Warranty is provided.

Off-season refinishing includes blanket wrapped winter storage at no additional charge. Please note: Covers or dry storage for periods when the furniture is not in use can help extend the life of the finish.
